At Montblanc International we're very proud to recommend TechnoIP's FONAX CLOUD IP telephony solution.

We've been users of their excellent service since 2018 and we are very satisfied with their technology, ease of use, sales and technical expertise and support, specially with the savings of thousands of dollars the implementation of the FONAX CLOUD solution meant for our yearly budget in comparison to the competition.

We can always count with the support staff in case we need some changes and their system has definitely been very adaptable to any changes we've requested, including integration with Video doorbells and PA announcements for our Warehouses.
