EXCLUSIVE ANCHORING SOLUTIONS

# SOLID, LASTING DECKS

The traditional method of supporting your deck with poured concrete pilings is outdated. Helical piles are a better — and easier — solution. GoliathTech screw piles will solidly support the deck over the long term, are much quicker to install, and the deck construction can begin immediately afterwards. Plus, they're installed using small equipment that leave no damage to the yard — perfect for backyards where space can be tight.

**No damage from cold or frost, and no movement!**

**SADDLE  
BRACKET**

## SOLID ANCHORING PREVENTS MOVEMENT

Our screw piles are installed deep into stable soil to solidly support the deck, even the largest and heaviest-load decks, in any soil or environmental condition. They feature helices with a diameter from **8 to 17 inches** as required, for optimal compression and tension performance. Our precise engineering and installation method ensures that over time the deck will remain stable.

## INSTALLATION IN HOURS **USING SMALL EQUIPMENT**

- ✓ NO CONCRETE DELAYS OR DRY TIME
- ✓ REMOVABLE AND REUSABLE
- ✓ NO BLOCKS OR STRAPPING NECESSARY
- ✓ NO SOIL DISPLACEMENT OR REMOVAL
- ✓ NO MESS
- ✓ NO WEATHER DELAYS
- ✓ FULLY ENGINEERED

PATENTED

SOLUTION

## QUALITY ENGINEERING

- 1 SADDLE BRACKET WITH OPTIONAL HEIGHT ADJUSTMENT**
- 2 MAKE THE CONNECTION!  
STRONG & SECURE BOLTED HEAD CONNECTION**
- 3 EXTENSIONS HELP REACH STABLE SOIL**
- 4 GALVANIZING PROCESS PROTECTS  
STEEL AGAINST CORROSION**

### ADJUSTABLE & FLEXIBLE SOLUTIONS

- Contractor can adapt solution to fit each installation
- Calibrated torque-reading equipment ensures precise fit
- Height-adjustable via threaded rod; adjustable head length

### COMPRESSION & TENSION HANDLING

- Industry-leading rod and pile compression resistance
- Extension and mounting bolts feature high shear capacity
- Superior load-bearing capacity
- High tension handling of rods and tube to prevent uplift

### DURABILITY & ENVIRONMENTAL RESISTANCE

- Performance in cohesive & cohesionless soil
- Fights frost and thawing soil movements from the inside out
- Polyurethane core prevents freezing ground around helix
- Prevents lateral or vertical movement of deck

Polyurethane prevents  
freezing ground  
around helix and stops  
winter heaving

60 ksi  
galvanized  
steel

8- to 17-inch diameter  
and 3-inch pitch

# WE ARE GOLIATHTECH

## THE PILLARS OF YOUR PROJECTS

### GOLIATHTECH'S INSTALLATION PROMISE

Our network of certified installers put their vast experience to work to guarantee optimal anchoring of each pile.

Because the quality of an installation is as important as the quality of the piles, all GoliathTech installers have received training at our factory and are certified technicians on the installation of our products.

Installers use mini excavators equipped with our proprietary calibrated torque-reading equipment, which allows them to determine the exact tension and compression values on each site. Their expertise ensures that the screw piles and the supported structure are built to last.

**BACKED BY THE GOLIATHTECH  
PROMISE, GUARANTEED!**

## QUITE SIMPLY SUPERIOR.
