To Whom It May Concern:

It is my pleasure to recommend Renascent, Inc. for any project that requires an experienced, professional demolition contractor.

D. W. Wilburn, Inc. contracted with Renascent for the demolition portion of the Capital Plaza Redevelopment project in Frankfort, Kentucky. It was a large, visible project that garnered a great deal of media attention. Our contract with Renascent included asbestos abatement and demolition of a convention center, plazas, underground parking structure and, most significantly, the implosion of a 28-story / 336 foot tall off tower. All told, the project comprised 1.6 million square feet and our contract with Renascent was for \$5.7 million.

Renascent has the technical and project management staff to take on a large project such as this. We found them to be "Experts in Demolition" as their motto says. Perhaps just as importantly, we found Joshua Campbell and his Renascent team to be good partners in navigating the complexities of a P3 (Public Private Partnership) project and working with the media. Their leadership worked very well with us and they were an important part of making this very public project a huge success for our company,

I heartily recommend Renascent to you.

Respectfully,  
D. W. Wilburn, Inc.

Doug Wilburn  
President
