Tallahassee, FL 32310

To Whom It May Concern:

**RE: Customer Reference - Security Force**

I am writing this letter in regards to the good work that Security Force has done for us in the past. We have contracted Security Force on many occasions for installing network cable, fiber optics cable, fiber buses, and replacing existing network equipment. Our university is constantly expanding as more students enroll. This constant need for growth and updating of our systems in the future will no doubt give us the need to contract services from Security Force in the future as well.

Sincerely,

Lee Nawrocki  
Network Support Team
