**Subject:** Mathers Electric

In response to a request from Mathers Electric Company

To Who it my concern:

In 2007 the Wakulla County School Board contracted with Mathers Electric to install a fiber drop from the Computer Lab to the Main hub located at Riversprings Middle School. This work also included media converters, data drops and other work connected with this type work. We have not experience any problems with the work his company completed on this job. I have also worked with Mathers electric on many occasions and have found his work to be of high quality in all aspects. I would not hesitate to recommend Mathers Electric again on other projects. If you have any questions please do not hesitate to call me @ 850-926-0065 .

Sincerely  
William R. Bristol
