

## Testimonials

Whitestone construction performed on budget and on schedule for an aggressive project in an academic setting. Their staff, from President down to laborers was always courteous, professional, and capable, and their suggestions throughout the process always served to improve the end result for the Client. **I recommend them without hesitation.**

*The scope of this project included an update to the retail functionality of the store involving the conversion of fitting rooms to offices on the main floor, addition of new fitting rooms on the lower level, addition of overhead architectural soffits, and upgraded casework throughout.*

*In addition, the lighting was substantially upgraded and a new mechanical system was installed. All work was completed in an occupied retail space that remained open for the duration of the project. Close coordination and scheduling was required in order to meet the challenging 10 week schedule.*

---

Working in the resident halls here at the University of Colorado is very difficult to say the least, especially when we take the bathrooms away from already stressed out students to renovate. I punched, and without pushback the people of Whitestone found a way to get the job done sooner than later.

Under the extreme protest of the students at Aden Hall, you and your team have been able to complete this project easier than scheduled.

I want to congratulate your team of Libby, Chip, Steve, Tony, Luis and anyone I forgot to mention for a job well done.

Their perseverance and professional manner in which they handled themselves under difficult circumstances has been commendable.

Thank you,

*Tony Sposato*
