Re: **Central Utility Building (CUB) & Commuter Parking Deck  
for Pocono Medical Center**

Dear Mr. Winot:

I would like to take a moment to show my appreciation for the work completed at both the Pocono Medical Center Central Utility Building (CUB) and the Pocono Medical Center Commuter Parking Deck.

We decided to utilize your company's assets and skills first based on the excellent recommendation given to us by the hospital's staff and also based on the competitive pricing provided during the bidding phase of CUB project. The changing conditions with the site work were no match for your company's fluidity and ability to make quick adaptations to a very difficult project.

Your company's attention to detail, safety and organization at the CUB project led us to look to you for the site work portion of the Parking Deck project also. The timely fashion and the skilled labor that you implemented on this project were second to none. This was by far one of the cleanest sites we have worked on making all subsequent subcontractor duties that much productive allowing for a tightly scheduled project to be completed on time despite the lag in the project start due to permitting.

We have worked with many site contractors in our vast history and rank you as one of the most professional and trustworthy companies on our list of potential site contractors and look forward to a long standing history between our two companies.

Regards,
