Reference for Right Way Construction:

I am writing this letter to you as a recommendation for the services provided by Right Way Construction. For the past few years I have worked hand in hand with Right way and Mr. Peterson to assist us with numerous services including complete reroofing of our 12,000sq.ft. Clubhouse, interior storm damage repair and numerous exterior building and bus stop repairs. At no one time have they failed me, and they have always been on time, making them a reliable partner to us.

My first engagement with Right Way was in 2014 on a \$500,000 storm damage claim. The company brought along the expertise to assist us in dealing with the insurance carrier along with all the different trades needed to bring our Clubhouse back to life. The feedback and results were phenomenal compared to the previous companies we had used in 2011.

I would like you to consider Right Way Construction for your remodeling and renovation needs. I have had a good experience with them over the past few years for the services they have rendered to us. I therefore strongly recommend their services. Let me know if you need any previous working record regarding Right Way Construction.

Yours Sincerely,

Mark Thomson
