Moving & Storage

## THE CHALLENGE

Lend Lease was hired to build 192 high-end condominiums in the heart of a major city. To start, they needed to obtain and secure building materials and temporarily store fixtures removed from the worksite. They also wanted to maximize construction site productivity by reducing clutter and keeping subcontractors on schedule.

## THE PODS SOLUTION

A single, dedicated Business Solutions Specialist scheduled deliveries and pick-ups, managed changes and addressed other logistical needs. The contractor packed fixtures into PODS containers for convenient transport or storage. Same-day deliveries were coordinated, increasing productivity and keeping the contractor on schedule.

## THE RESULTS

Pick-ups and deliveries of materials were scheduled and executed seamlessly, reducing logistical headaches and keeping subcontractors on schedule. The contractor's fixtures were stored at a secure, local PODS Storage Center, preventing damage or loss, and eliminating the need for on-site security.
