

Testimonials

"I worked with Flint Architects on a building renovation to incorporate a new catering facility. Steve conducted himself in a professional demeanor and provided drawings in a timely manner. He worked well with our contractors and promptly handled any issues that arose. I would use his services again for future projects."

- Bob Nykaza of Sweet Baby Rays

"Steve is a very knowledgeable architect. His approach to problems is very systematic and thorough as you would expect from someone in his profession. I first met Steve as a fellow member of a local chamber of commerce and was immediately impressed by his skills, presentation abilities, and in-depth knowledge of the field."

- Mike Keith of Michael R. Keith & Associates

"Steve is an accomplished architect with a dedication to detail and a desire to satisfy his client's needs."

- Wally Allen of Allen Engineering Co.

"I have known Steve for the last three years. Steve is great to work with, as he is a consummate professional. He's a very experienced and knowledgeable architect, as well as an honest and solid business owner. I would recommend Steve to anyone that is looking for an architect that has high integrity and is a true professional."

- Tom Kelly of Potential in Motion

"Steve Flint provided creative ideas and on-time architectural drawings for the construction of our new garage and needed redirection of drainage flow in the adjacent driveway. Steve delivered on promises to be on site when needed, helped us select contractors, worked well with those hired, and gained required Village site approvals. I am very happy to recommend Flint Architects and United Home Builders for the high-quality work they did. We get many positive comments on the new garage, entry, and driveway, and best of all, the recent heavy rain easily flowed to the rear of the property as Steve planned."

- Pat Poskocil, Lombard resident

"We are delighted to recommend Flint Architects."

- George and Marilyn S.

"Our much dreamed of kitchen addition was a huge success thanks to the services of Steve and his team! Every step of the way start to finish."

- Thomas M., North Lake

"Steve Flint and his team designed our new family room and dining room and we couldn't be happier! It looks beautiful! He is very professional, hands-on, open-minded, timely and friendly. It was a pleasure."

- Mimi T., Lombard

"Steve Flint Architects were instrumental in our 2012-13 addition project. Steve and Brad made the process fun and exciting. They provided great input with the permit and inspection process. Steve was always more than willing to take calls or visit on site during construction. I highly recommend and wouldn't hesitate to use Steve & Brad on any future projects. The Galvan family in Naperville."

- Manuel G., Naperville

"We interviewed a number of architects prior to choosing Flint Architects to design our Craftsman style home. We chose Steve, not only because he is a professional with an extensive background, but also because of his friendliness and easy manner. We knew that we would be working closely with him and his team for the better part of a year as our home was designed and built, and we wanted someone who would listen to our ideas and would work well with us and our builder. Steve not only accomplished all of that, he also worked to keep us within our budget, while making suggestions that would improve the overall quality of our home. His ideas were invaluable in creating a beautiful, comfortable home that we will be able to enjoy for many years. We continuously receive compliments on the great curb appeal and beauty of our home. We are delighted to recommend Flint Architects."

- George and Marilyn S., Seagraves

“I am working on opening our newest restaurant and Steve has made it a very easy process for us. Steve is a wonderful professional and gets thing done! Very pleased with the work.”

- Javier C., Bartlett
