Re: Valcom Enterprises, Inc.

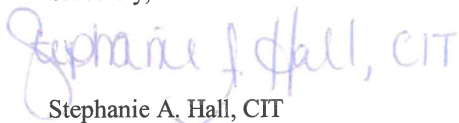

To Whom It May Concern:

I have had the pleasure of working alongside Valcom Enterprises in several projects over the past couple of years. In that time I have found the company to be staffed with honest, hardworking employees who take pride in their work. Employees who are willing to go the extra mile to satisfy the owner's wants & needs. I firmly believe that this excellent work ethic was taught to the employees from upper management within the organization.

On the projects that I have worked with Valcom I have received 100% of their dedication. Managers like Trey & Todd, show in depth working knowledge of each project like they are the ones running the project on a daily basis; yet trusting in their field supervisors to complete the project on schedule & within the budget. Trey & Todd's extensive knowledge on the drywall, metal studs trade makes them an asset to the construction industry. Several times I find myself questioning a note on a drawing or specification, & know that I can call on Trey & Todd for a detailed explanation.

The leadership skills that Valcom brings to a jobsite put them above the rest & they take the lead in the coordination of other trades that they must interact with. It is my pleasure to recommend Valcom Enterprises, and I look forward to working with them on our future project.

Sincerely,
