RE: The new office building for Cheviot Savings Bank

Mr. Trey Lafkas,

Now that the owner has moved into their new offices, I wanted to thank you and your company for working closely with HGC Construction to give them a project we can all be proud of. This building is the largest project the city of Cheviot has seen for some time and the end product is a tribute to the skilled workers as well as the owners of the bank that will stand for years. Your company was an integral piece of the overall job and I wanted to make sure that you know how we appreciate the way everyone worked together on the project for the common goal of giving Cheviot Savings Bank a fantastic building that they will enjoy for years to come.

Thank you for your attention to detail during the entire project and for helping us push the schedule to give the owner a project we completed early and within budget.

Respectfully,

Gary R. Gilbert LEED AP BD+C
