Re: Valcom Enterprises

To Whom It May Concern,

Speaking on behalf of the Messer project team for the P&G West A Renovation, I would like to say how much we appreciated working with Trey Lafkas and his team on this project. This job, like many others, had a tough schedule, which included delays due to owner funding, decisions, etc. Along the way, Valcom proved to be a trusted partner that had Messer and P&G's best interests in mind. The initial phase of the project, an approximate 46,000 sf office renovation, had a particularly demanding schedule that Valcom was able to meet due to their communication with our project team. Throughout all phases, they showed an attention to detail that we really grew to appreciate. They also provided quality work, showed expertise in cost control, and have a company safety culture that are often lost on fast paced projects.

I look forward to future opportunities to work together with Valcom. Please contact me if you have any questions or if you need any additional information regarding Valcom.

Sincerely,
Messer Construction Co.
