To whom it may concern,

Based upon years of experience working with Valcom Enterprise Inc. (VEI) over multiple contracts, I can give VEI my highest recommendation.

VEI has provided the framing, drywall, insulation and acoustical ceiling work on multiple construction projects that I have managed for Messer Construction. Many of these projects took place within operating health care facilities which take a special level of attention to the process, as well as the end product.

In every important measure, VEI has excelled as a business partner – quality, safety, value, schedule, flexibility, accountability, attention to detail, follow up, to name a few. The business executives, managers, and field craft and managers have a cooperative, team approach that contributes to the success of every project.

I highly recommend Valcom as a construction contractor.

Sincerely,

A handwritten signature in black ink that reads "Beth Coulson". The signature is written in a cursive, flowing style.

Beth Coulson

Senior Project Manager
