Dear Wayne & Mark:

I want to thank you both for the fabulous results of the renovation of 2901 Hamilton Boulevard. When we purchased the building last November, with the idea to renovate it in time for Fall Semester 2007, we knew we had an aggressive timetable. You both have done outstanding jobs in helping us succeed in our dream.

You treated the surprises along the way as only small bumps in the road to getting the job done. I am very grateful for how well you worked together and with us to resolve each issue throughout the design and construction phases. Thank you for your efforts and creativity.

Sincerely,

Elaine N. Deutch
