To whom it may concern,

As President/ C.E.O of Dynaco Food Concepts I have been very favorably impressed with the work performed for our corporation by CDI construction. Over the past 2 years they have completed 3 projects for us, and have come within their budget every time which is highly unusual in the construction field. The quality of work has been outstanding, and we plan on using them in the future as we grow for all our construction needs. I highly recommend CDI to any organization looking for the best in construction management services.

Sincerely,

Randy Brooks- President/C.E.O. Dynaco Food Concepts
