July 2, 2014

Dear Mr. Crosby and the Emerald City Shot Blasting team,

I am writing you today to express my deep appreciation for the work your team did for our fire department. In December of 2006 a winter storm damaged our truck bay roof and did extensive water damage to the truck bay floor. In 2014 we investigated painting, staining and polishing as a fix to the damaged concrete floor. After we reviewed the options we chose to polish the concrete floor. As a public official, I am charged with spending our citizens' money as effectively as possible. The painting and staining options have more significant maintenance needs than the concrete polish does. The concrete polish your team delivered for our fire department brought our floors back to a "like new" condition and our firefighters still cannot believe our truck bay floor can look this good! Our taxpayers also see a significant value do to the refurbishment of the existing floor and the reduced maintenance cost. I highly recommend the concrete polishing service to all public agencies that are held accountable for spending public money wisely. I am happy to recommend Emerald City Floor Shot to all of my peers and associates as a high quality and trust worthy business.

Respectfully,

A handwritten signature in blue ink, appearing to read "Clint Volk".
