Laminate Kitchen Countertops Repaired and Refinished
At a fraction of the time and cost of replacement

▲ *Miracle Method provides quality bathroom and kitchen surface solutions to multiple Brookdale Senior Living properties in Colorado and around the country.*

The Problem

Laminate countertops in the independent living apartments were plain and dated and weren't showing well to potential new residents. As Brookdale's planned unit turnaround time is just seven days, removal and replacement is both impractical, costly and would interfere with the painting and carpeting usually planned for these units. Management turned to Miracle Method for a faster, high quality solution.

The Miracle Method Solution

Miracle Method proposed their Natural Accents[®] stone look finish as an ideal upgrade for laminate countertops. It would provide an updated look, and the final satin clear coat would be extremely durable. The process requires only two days and would not interfere with other work being done in the apartment.

The Process

As units become available, Miracle Method technicians clean the countertop surfaces, repair any chips, seal the seams and refinish the surface in Brookdale approved colors.

The Results

The refinished countertops have an updated, solid surface look. By using Miracle Method's two-day refinishing process, Skyline is able to meet its seven-day turnaround goal while saving money over costly replacement. Skyline calls on Miracle Method on a regular basis to refinish countertop, vanities, bathtubs, tile walls and floors to help maintain their facility as one of Colorado's premier senior living communities.
