CASE STUDY

West Ada School District, Eagle Hills Elementary School - Eagle, Idaho

Miracle Method Gives Classroom Countertops a Modern, New Look Before Students Head Back to School

The Problem

Bright blue and neon orange countertops located in classrooms at Eagle Hills Elementary School were in desperate need of an upgrade. Having sinks and faucets mounted underneath the countertops meant replacement would be extremely problematic and expensive. West Ada School District needed a cost-effective alternative that could quickly update the appearance of the 60-year old classrooms over the students' summer break.

The Miracle Method Solution

Miracle Method performed a refinishing demonstration on a twelve-foot countertop for West Ada School District. Over a yearlong testing period, the refinished countertop surpassed the school's expectations for durability and ease of cleaning. Miracle Method was then selected to update all the classroom countertops. Not only did the refinishing process provide an updated look and cost savings, it met the school district's limited time constraints compared to contractor's estimates for removal and replacement.

The Process

Miracle Method technicians thoroughly cleaned the countertop surfaces and made repairs to any missing pieces of Formica. The discolored countertops were then refinished in Natural Accents®

stone-look finish for a modern, new upgrade. The project was completed by two Miracle Method technicians, returning all the classrooms back to service in just under three weeks.

The Result

Summer renovations were completed under budget and ahead of the school district's schedule. Teachers returning from summer break were absolutely delighted with new updated look of their classrooms. The entire staff was shocked when they were informed the existing countertops were beautifully transformed without any type of replacement involved. Impressed by the efficiency, affordability and the overall quality of refinishing, West Ada School District plans to further use Miracle Method for additional school upgrades.
