To Whom It May Concern:

Our fifteen-unit co-op installed the Aiphone GT Color Video Intercom and used the services of Advance Security & Intercoms. We were impressed with the professionalism and congeniality of Wilfredo Ortiz and his team. They stood out for their expertise and their attention to detail. They proved very flexible and efficient when they had to deal with a setback involving an inaccessible apartment. Not wanting to prolong the duration of the work involved and postpone the date of completion, they worked on other apartments in a different line of our building. They also had an excellent collaboration with our building's contractor and ensured that their work did not impede his in any way

Mr. Ortiz and his team combine the expertise of a well-established company with the personal attention and friendly manner one associates with smaller businesses. They were very generous with their time and did not spare any effort in explaining to us how the intercom system works or in instructing us on how to edit the names on the entrance panel.

We are very happy with our new intercoms and with our collaboration with Advance Security & Intercoms. We would recommend this company enthusiastically and without any reservations whatsoever.

Sincerely,

Dear Ida-

Just wanted to say what a pleasure it was to work with all of you, especially Wilfredo and Jon. I and the rest of the members of our co-op were treated with the utmost respect and courtesy during the install of our new intercom and security system. Every apartment and area the crew worked in was left clean. Every system was in working order and any difficulties encountered were overcome. ASI was definitely one of the best contractors we have employed over the years.

Sincerely yours,

To Whom It May Concern:

I was introduced to Advance Security & Intercoms by our property manager. I contacted them and received a call back from Wil where I explained to him that our building was looking to upgrade our intercom system which was over 20 years old. We agreed to meet so he could survey our system. Wil arrived on time and took his time explaining the different types of systems as well as recommended several options he thought would work for us. He also answered every question I asked him. I received their proposal from Cinthiya quickly and our Board Members were very pleased with the estimate. When the proposal was accepted Wil and I spent several hours coordinating the installation. He was always available and returned calls in a timely manner. Needless to say the two (2) day installation went smooth as silk. All the shareholders were very happy with the results.

I would recommend Advanced Security and Intercoms to anyone. With them you can expect that everyone involved cares about the work they do and will be dependable, honest and pleasant. Having lived at 238 Clinton Street for over 18 years you can imagine I have been involved with several different jobs within the building. I can say with Advance Security & Intercoms you can easily trust that the job will be done well and at a reasonable price.

Therefore it is with pleasure that I highly recommend Advance Security & Intercoms. Please do not hesitate to call upon me if I can provide any further information or assistance.

Sincerely yours,
