To: EL Shearer

Ed,

I need to take this opportunity to express our gratitude to EL Shearer for the performance of your site workers and office staff on the Jamestown Project. I rarely get the opportunity to say this, but it has been an absolute pleasure working with your staff. It has been a difficult project with unusual specifications, I would especially like to emphasize the way that the EL Shearer staff has handled the adversity and conflicts associated with the design, all issues were handled in a professional manner and expedited quickly which ensured our good relationship with the ownership and architects for future projects. EL Shearer has been well represented for both their knowledge & skill. I would like to give a special thanks to Vic & Brian they have been a big part of making this project a success!

Sincerely,

Al Marr
Project Superintendent
