

Immediate Solutions LLC

To who it man concern.

Immediate Solutions assisted the Tampa Bay Arena in evaluating options to repair or replace its major mechanical systems as part of a recent major renovation plan. We sought out and found a few reputable contractors, asked for proposals and then interviewed each one. Tappouni Mechanical Services Company was highly recommended by other representatives for other major projects in the Tampa Bay area. Based on the proposals and interviews, the Owner selected Tappouni for the multiple projects at the Tampa Bay Times Forum.

Michael@immsolutions.net

Over the last three years, Tappouni has exceeded our expectations in terms of working with the Immediate Solutions, the design engineers, other contractors working on the renovations and most of all the owner and its personnel. Tappouni Mechanical Services Company helped developed unique solutions for many of these projects. In every case, budgets were established and schedules were set. Very short construction schedules were part of the demands for parts of the renovations. Tappouni Mechanical Services Company delivered the projects under budget and beat the schedule demands for each phase of the replacements and renovations.

Tappouni Mechanical Services Company deserves to be recognized for its outstanding work on the Tampa Bay Times Forum.

Sincerely yours,

Immediate Solutions L.L.C.
