RE: 11204 Koop Road – Barn Restoration Project

To Whom It May Concern,

It is with honor and privilege that I endorse H.A. Dorsten Inc. for the “Associated Builders and Contractors” annual award. All aspects and challenges of our project were handled with professional care and consideration to meet our expectations of the renovation project.

The unique and challenging renovation of the “barn” structure offered many challenges starting with the raising of the structure to a level foundation, utilizing the original barn beams, incorporating reclaimed barn wood for walls and flooring, corn cob blasting of the interior to name a few.

The interest, the time and the dedicated professionalism of the staff at H. A. Dorsten made the dream project a reality. During the entire course of this extensive and complicated renovation, we never doubted that we remained in good hands. Our trust in your integrity has been more than rewarded.

With the completion our excitement of hosting company meetings, entertaining customers and utilizing the facility to its full capacity was achieved beyond our expectations.

Congratulations on a job well done!

Sincerely,

David Winch  
CEO  
Nidec Minster Corporation
