

PUBLIC WORKS DEPARTMENT  
**THE CITY OF WATERBURY**  
CONNECTICUT  
BUREAU OF ENGINEERING

To Whom It May Concern:

A & J Construction was the City of Waterbury 2009 paving contractor. They laid more than 36,000 tons of bituminous concrete. A & J Construction completed our paving project which exceeded our expectations. Issues arise each year with all large paving projects that are unexpected, however, A & J Construction showed considerable flexibility with changes that were required including the need for night paving. They were reliable not to mention professional. I would highly recommend A & J Construction. I would welcome the chance to work with A & J Construction if the opportunity ever rose again.

Very truly yours,

City of Waterbury

Donald P. Dapont  
Paving Coordinator/Manager
