Re: City Beautiful Landscaping Professional qualifications

To whom it may concern:

Magley Design has had the honor of working with City Beautiful Landscaping on numerous occasions with great success. The projects have ranged in size and complexity but were all performed without exception at the highest level of expertise. The plant materials that were provided were of good quality and have always met our expectations. If the specified material were not able to be acquired at the time on installation, City Beautiful made the effort to contact us and discuss the available options to ensure that the product fully met our needs. In fact, even during the plant shortages that followed the recession, they had the contacts and resources available to acquire difficult to find plant material for our projects, ensuring their success. It is with these thoughts in mind that we feel quite comfortable in recommending City Beautiful Landscaping for all your landscaping projects. They are an organized and professional business that will serve you and your projects well.

I can be reached below if you wish to speak to us personally about City Beautiful Landscaping and their qualifications in the landscape industry.

Sincerely,

Rick Magley, RLA
