

George H. Pastor & Sons

GENERAL CONTRACTING

Three Generations of Quality

Spirit and Sons Inc. has been a part of our success in the General Contracting business for the past 25 plus years and have always been very happy with their service and quality workmanship. It has always been a pleasure working with the Spirit and Sons team. As a General Contractor we are looking for someone that can get the job done in a cost efficient, timely manner, which shows professionalism and Spirit and Sons Inc. has all of these qualities and more. We work on a budget for our jobs and we rely on them to provide us with the best quality work at the best price for our budget. It is also important for us to have work done according to the plans and specs without problems or overages and they have proven to provide us with this. It has been a great relationship and we are thankful to have them as a big part of our subcontractor team.

Thank you for the continued partnership,

John R Pastor
President
