Dear Cliff:

We are thrilled to have had you restore our roof. Jim Wollen was absolutely on target to have recommended you. We have gone through many discussions (and arguments) to convince the county we did not need many useless bids on a very complicated roof. After listening to many roofers, our choice to go with your company was the best decision. Your experience and dedication to exactness was exactly what we needed. The cedar shingles are beautifully laid and your intricate gutter system has stopped the many leaks left by the previous roofer.

We truly appreciate your dedication to perfection. Thank you.

Sincerely

*Patricia M. Dallam*
