

January 14, 2013

To Whom It May Concern:

Cozzens Construction performed the drywall, acoustical and carpentry work at the Cheesecake Factory in Woodbridge, VA. Not only was work performed in a quality, first class manner but the job was adequately staffed and supervised from the start. We look forward to a long lasting working relationship with Cozzens Construction on future projects in the MD, DC and VA area.

Sincerely,

Greg Breland
Senior Vice President
