**Letter of Recommendation for American Architectural Restoration**

**As a Property Manager for several commercial properties and having worked for Real Estate Investment Trusts (REITS), Corporate owned publicly held and privately held Shopping Centers over the last 30 years, I have engaged many Contractors in the management of my properties.**

**I can highly recommend American Architectural Restoration for the accomplished work that they have performed for me over the years. From investigating and troubleshooting a chronic leak to follow-up and follow-through on completion and guarantee work on many of my projects; they have had a successfully proven track record.**
