To whom this may concern;

We've put our Doosan loaders through their paces and they're the best loaders, period. They're tough, yet efficient and I feel secure knowing that I can get parts and service fast with Mega.

I was in the market for a new loader. I chose the Doosan DL420 because of its power, comfort, and efficiency. I was so impressed that I've since added an additional Doosan loader to my fleet.

Thank you,
