

27 February 2013

To Whom It May Concern:

I am pleased to submit this Letter of Recommendation for Precision Wallcovering & Painting. I've had the pleasure of working with Precision Wallcovering for over ten years.

They have consistently provided professional service and excellent pricing. Precision has completed projects, both large and small, at our two medical office buildings. Our latest project was a complete remodel of the common area lobbies, corridors and restrooms in the two buildings (11 floors), with wallcovering installed in all areas on every floor.

All projects contracted with Precision Wallcovering have been completed within our critical time frames and with excellent workmanship and cost effective pricing. I would highly recommend Precision Wallcovering.

Sincerely,

Deborah Boler
Executive Engineer
Tenant Improvements Coordinator
