

Testimonials

Residential:

September 4, 2012

Dear Mike,

I just wanted to drop you a note of thanks for the great job you and your company did in fully upgrading our HVAC system. We really appreciate the professional attitude of your entire crew and their extremely high level of expertise.

We were especially pleased with the analytical work that you did prior to our making a decision to move forward. You reviewed our old (40+ years) inadequate system and offered us several options and explained each to us. As you know we wound up replacing virtually everything, from the heating/air conditioning unit, to the duct work and registers. When I shared with you the fact that I had allergies you recommended a whole house air cleaner, which we also elected to install.

As of this writing, we are finally enjoying a cool home that is virtually allergen free!

Thanks again, Mike. Please feel free to share this letter with any prospective clients that you might have and please encourage them to call us for further information.

Regards,
Les Kane

Lucky Air quoted a very good price and their installation was very fast and efficient. I found their technicians to be very courteous and professional.

Commercial:

We at Van Holland Concrete/Construction have known Mike since 2005. Since that time we have done three jobs with Lucky Air and are at present doing a room addition which we are very satisfied and we are also satisfied with his attention to detail and suggestions on the equipment needed on our jobs. We have future jobs coming and will be directing our attention towards Mikes advise and suggestions for a very competitive quote. We also found Lucky Air dependable and prompt

James D. Restoration is delighted to count on Lucky Air for their complete HVAC Provider. Over the years Mike has proven to be not only the most competitive price but also the most dependable subcontractor I have come across. I appreciate Lucky Airs ability to always maintain friendly customer service and a quick response time.

I am responsible for the environmental systems throughout the campus and I work with housing managers for the campus housing H.V.A.C. systems as well as electrical and plumbing. Our campus maintenance demands can be quite exceptional and we rely on competent contractors. I give my sincere recommendation for the use of Lucky Air, Inc., a contractor who has been exceptionally helpful in supporting our campus H.V.A.C. needs. Lucky Air has performed repairs, equipment replacement, preventative maintenance, and new equipment installations with the highest level of professionalism. Another attribute of Lucky Air, Inc., is the value in their pricing; they have proven to be very cost effective throughout various projects.

Signed,
Jeremy Schlaman
Manager of Utilities, Energy, and Controls
