

Tim,

I met Tim Bobrik on site and it's nice to see a flooring company managed the way NWFS is. Tim was on top of organizing labor, material locations and schedule. You don't see that level of competence these days and it's nice to see it still exists! From the top down NWFS has been as professional to deal with as you could hope for and it's very much appreciated by all of the Todd staff.

I met with the David Douglas School District owner's rep yesterday afternoon on site. He was impressed as well and complimented your installers for doing a great job and helping us out of a jamb. I recommended that David Douglas put NWFS on their preferred contractor list and he agreed.

Thanks for everything and keep up the good work!

Andy Turner
