Re: Baker Underground & Construction, LLC  
Letter of Bond Ability

To Whom It May Concern:

At the request of Baker Underground & Construction, LLC, we are providing information regarding the company's ability to obtain bonds on various projects.

Baker Underground & Construction, LLC has been and continues to be a fine client of ours with a very solid track record for completing projects previously bonded through our agency.

To date we have executed Bid, Performance and Payment Bonds to a single job size of \$1,200,000.00 with a total bonded work program of \$1,500,000.00. Under circumstances acceptable to their Surety, bond limits of equal size or greater would be considered.

Should Baker Underground & Construction, LLC be awarded contracts within the job size and work program mentioned above, we would look favorably upon execution of any final bonds required by the contract.

In view of our past experience, we have found all owners very pleased with the performance of Baker Underground & Construction, LLC. If there are any questions or if you require additional information, please do not hesitate to contact our office.

Sincerely,

A handwritten signature in blue ink that reads "Chris A. Fix". The signature is written in a cursive, flowing style.

Chris A. Fix, Account Executive
