Re: **General Bonding Information**

Dear Tracy:

As requested, we provide general bonding services for Calvary Paving & Grading LLC and we are pleased to advise that bonding for Calvary Paving & Grading LLC can be made available on single building projects up to limits of \$500,000 underwritten by Western Mutual Insurance Company rated A-IX and listed with the U.S. Treasury Department.

Subject to underwriting, surety limits are flexible and may be established to meet special project circumstances and conditions. In accordance with customary surety underwriting requirements, a review of contract terms and conditions, verification of project financing and approval of appropriate file updates and funding terms, will be undertaken prior to final surety approval.

Any arrangement for bid bonds and or final bonds is a private matter between the contractor and surety and neither we nor our surety underwriters will assume any liability to third parties, or to you, if for any reason a bond request is not approved or executed. This letter is not in any way an approval for bid and/or final bonds, but merely is an indication provided so that Calvary Paving & Grading LLC may be prequalified with prospective construction customers. Please feel free to contact us for additional information or questions.

Sincerely,

Hill & Usher LLC
