To whom it may concern,

I am writing this letter on behalf of Bill Williams of Williams Electric. I have known Bill for about 6 years, during this time I have witnessed Bill's character, dignity, professionalism, and caring attitude.

Bill has done electrical work for me and has done an outstanding job and I always refer Bill to all my metal building customers knowing he will do an outstanding job and make my customers happy.

Bill is an on the job electrician, he doesn't just send a crew out, he is actually on the job doing the work which is hard to find in most companies. This trait is convenient if the customer wants changes or additions.

One thing I personally like about Bills work is he does a clean job. He will hide the wiring inside the framework of a steel building when possible so that all that is visible is the actual plug or switch.

I recommend Bill Williams for any and all your electrical needs.

Sincerely,

Keith Springfield
