Letter of Reference

To Whom It May Concern:

Belair Wall Systems has been our EIFS/Stucco System subcontractor for more than ten years providing excellent service and product installation. Their work shows high quality and attention to detail. We are very pleased with all of our projects that they have worked on and would recommend them for EIFS/Stucco work to others who may need it.

If you have any further question please don't hesitate to contact us.

Sincerely,
Brian Leahy

Project Manager
KNS Construction, Inc.
