To Whom It May Concern:

Belair Wall Systems, Inc. has provided stucco and EIFS services to Dunbar Construction, LLC for the past several years. It has been a pleasure working with Larry and his staff who not only produce a high quality finished product, but also genuinely care about meeting the needs of their clients. Belair's field crews do an outstanding job on the preparation, completion and clean up of each project.

I appreciate the personalized attention that Belair provides me and the extra effort that they put forth to make sure each project is done right. Dunbar Construction confidently recommends Belair Wall Systems and we look forward to continuing our working relationship with them for many years to come.

I've attached project profiles of two of the larger projects that Belair has successfully completed for me. They also did a great job on the lathe and stucco work at my personal home last year. Please feel free to contact me should you have any questions.

Sincerely,

Chad M. Dunbar, Principal
