Dear Valencia College Procurement,

I would like to send a letter of reference for Accurate Electrical Connection for their exemplary work. Many instances of their excellence come to mind, but there are specific examples I would like to mention in the following letter. Their incredible customer service, fast response time, and overall great work ethic is what separates them from other contracting companies and what has moved me to write this letter of reference.

The first example I would like to present is their work and partnership in June 2015 when power to the college was disrupted. They worked with our maintenance department hand in hand the entire day, making sure that Valencia would be up and running for the students by the next day. Their follow-up to this instance was also exemplary, making sure that my staff was well informed of any continuing issue and its resolution and giving guidance to the staff as well, since we do not have an electrician on staff.

The second example I would like to present is their work and partnership over the summer of 2015 on the college-wide cafeteria renovation. Their input, advice, and incredibly hard work was critical to having the cafeterias and new Dunkin Donuts' running prior to the start of the school year. I would like to specifically give gratitude to Andy and Stan for running this project, having the parts in on time and in the right place before the school year. Without their help, this project would not have been possible.

Accurate Electrical Connection is an outstanding company with great customer service and loyalty to Valencia College over the last several years. I whole heartedly believe that they are a true partner instead of just another contracting company. The individualized service and routine check-ins with the Superintendents is what really separates this company from others I have worked with. I recommend with the highest compliments Accurate Electrical Connection be Valencia's electrical contractor.

Sincerely,

Adam J. Talbot, MBA
