

## **Industrial Caulk and Seal Attends 2019 Safety Academy in Manheim, PA**

*Industrial Caulk and Seal Inc. recently sent Tim Stouffer, Industrial Caulk and Seal Safety Manager, to Associated Builder and Contractors Safety Academy held in Manheim, PA*

MANHEIM, Pa. ([PRWEB](#)) August 16, 2019 -- Tim Stouffer, ICS Safety Manager, recently joined dozens of other construction safety professionals from throughout the Mid-Atlantic and North East at the 2019 Safety Academy sponsored through Associated Builders and Contractors Keystone Chapter. The two-day interactive forum was engineered to build on existing construction safety concepts and define not only a safety program but focus on the development of a true safety culture in today's dynamic construction world.

“Working with the regional and national safety team from ABC has been a critical part of Industrial Caulk and Seal's ongoing commitment to safety on all projects,” states Tim Stouffer, Safety Manager at Industrial Caulk and Seal.

The ABC Safety Academy is focused on assisting ABC members with further defining their individual safety program in today's ever-changing construction world. The Associated Builders and Contractors Association has taken construction safety to a new level through the development of the ABC STEP program which is a comprehensive safety improvement tool that is defining safety culture in progressive construction companies.

Industrial Caulk and Seal is wholly committed to job site construction safety, and, through the use and implementation of skills learned both in the field and in the classroom, has set the benchmark among subcontractors for maintaining one of the leading integrated safety programs in the industry.

About Industrial Caulk & Seal: ICS is a nationally recognized commercial contractor serving the Mid-Atlantic and North East. Founded in 2001, ICS has worked aggressively to set the industry standard in commercial concrete polishing, commercial caulking and semi-rigid joint fillers, commercial flooring and coatings, and comprehensive floor repair and restoration.
