

## **Some things our clients are saying about us...**

*"Their communication is great and always consistent. They are really reliable."*

*-Jeremy Cole, BNB*

*"The only ones I will ever use.. they are always right, and their marks are easy to understand, not "chicken scratch" like others we have seen."*

*-Tony Kiehle, Lease Crutcher Lewis*

***"The experience we had with your men was infinitely superior to what we encountered with the two other firms we used. Your level of expertise and thoroughness didn't just make the other guys look bad--it made them look like impostors."***

***-David Butler, Le Caviste***

*"This company actually knows the difference between rebar, conduits, and cables. They located all the cables in our core areas and marked them in bright red. I recommend them to anyone who needs safe areas for pukas."*

*-Pat Ahue, Porter Construction*

***"Accurate..... Easy to work with..... Punctual..... Best of all: no costly repairs afterwards!"***

***-Ryan Oshita, Brett Hill Companies***
