To Whom It May Concern:

It is my distinct pleasure to recommend the services of Ferandell Tennis Courts, Inc. to you for any court resurfacing, construction, or maintenance needs you may require.

Having been with the school district for over ten years, I have had numerous occasions to work with Ferandell on district contracts and have always found them to complete their work as promised and on time, and without repetitive need for change orders.

Ferandell remains current on industry standards, and has proven more than helpful when questions arise about current and/or future USTA regulations.

Sincerely,

Russell L. Thornton

Dear Paul,

Thank you so much for restoring
our tennis court while we were gone.
I put a big bow on the main gate &
took Harry out to show him yesterday
afternoon & he was so surprised
(& very happy). He was awestruck
that you were able to do the entire
job in such a short period of time!
Thanks for helping to create such
a happy birthday surprise for him -
I'm very grateful to you! We love
to play tennis and now once again
the ease of not having to drive
somewhere to play will be a great
joy! Thank you, thank you, thank you!

Very sincerely,
Cathy Robinson

Dear Paul:

Susan and I would like to take a moment to thank you and your excellent crew for the really fine job of repairing and resurfacing our tennis court.

The myriad cracks, pits, bubbles and peeled areas, and areas where the binder had separated from the concrete, were repaired so skillfully that the surface looked new even before the paint was applied. Then we watched the careful and precise painting job that completed the process of returning our court to its original competition level perfection. We have come to fully appreciate what is involved in this complex and demanding process.

Please add our names to your undoubtedly long list of admiring and satisfied customers. We would be happy for you to use this letter as a reference or for you to arrange to show our court as an example of what quality work you deliver.

Sincerely,

Frank A. Oddo
