Associate Principal

Eileen Mezzo  
Dean of Academic Programs

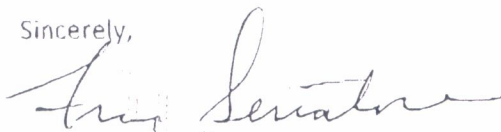

September 15, 2008

To Whom It May Concern,

I am writing to endorse the fine work done by Pro-Tect Inc. Our high school was having a number of major construction projects done over the summer of 2008. Replacing the entire school roof with solar panels and installing a completely new intercom and fire alarm system were two of the projects. The work was going on schedule until the old compromised fireproofing fell through ceiling tiles when the old roof was being ripped off. It was determined that all the remaining fireproofing needed to be scraped off before new fireproofing could be applied. Pro-Tect Inc was hired to do the fireproofing. They worked closely with the other project supervisors and me to try to stay on schedule. The goal was to have the school ready for the opening on August 27. No one believed this project could be completed in time for the opening of school. Ken Watterworth and Dave Butler were great. They worked with the roofers, electricians, building inspectors, fire marshals and movers to get the building ready for the fireproofing. They had a very efficient, hardworking crew. Through their efforts a major miracle was accomplished and the building was ready for the opening of school.

With complete confidence I endorse Pro-Tect Inc. I had complete trust in Ken and Dave to get the job done without cutting any corners.

Sincerely,

Fran Serratore

Principal
