

Simplify your Green Cleaning!

Clean & disinfect every surface with just 1-product

Use *One Product* to solve **95%** of your cleaning needs

After dilution

Enviro-Pro
0 HEALTH
0 FLAMMABILITY
0 REACTIVITY
0 PROTECTIVE EQUIPMENT

As defined by OSHA's Hazardous Communications Standard, this product is non-hazardous in use.

How much hazard is acceptable to you?

Highly Concentrated! Simple & Safe to Use!

Other cleaning systems involve training staff on multiple products that leave behind residues requiring constant re-cleaning. Simplify your cleaning and training and gain a cleaner and healthier facility by using one-product, **CleanSmart's Enviro-Pro**, to clean and disinfect with NO residues. With only one-product, save money, save labor hours, simplify training and clean more efficiently and with better results all without introducing toxicity.

2-dilutions of **Enviro-Pro** (light and heavy) will take care of 95% of your cleaning needs. Simply train your cleaning personnel to clean by soil load. Light soil loads use a light dilution (blue bottle) and heavy soil and touch points use the stronger dilution (red bottle).

Enviro-Pro is a hydrogen peroxide-based disinfectant, virucide, sanitizer, and fungicidal cleaner and deodorizer. It cleans and removes malodors from hard, non-porous, inanimate surfaces and is safe for all surfaces not harmed by water. The stabilized hydrogen peroxide in **Enviro-Pro** cleans fully and leaves no residue so you have a cleaner facility with NO residue build-up.

One Product

When used as directed, **Enviro-Pro** is EPA registered to kill **MRSA, CA-MRSA & Influenza Type A!**

Simple

- ◆ Residue free cleaning
- ◆ Easy to use = less training
- ◆ Improved efficiency
- ◆ 1-product for 95% of your cleaning needs = less inventory
- ◆ Less SDS sheets to maintain
- ◆ Several dispensing options available: dilution triggers, gallon pumps or wall mounted dispenser
- ◆ Color-coded bottles, wall charts, training cards, etc.

Safe

- ◆ Low VOC's
- ◆ No asthmagens
- ◆ No toxicity from cleaning
- ◆ Neutral pH in use
- ◆ Use on any water safe surface
- ◆ Biodegradable
- ◆ HMIS: 0,0,0 in use
- ◆ Non-Corrosive
- ◆ No Quaternary Ammonium
