

Interior/Exterior Gloss Floor Coating for ALL Surfaces

Easy to use!

Product Description

New Technology! Ideal for both interior and exterior application, CleanSmart's Nano Floor Protector provides excellent protection from stains and soil penetration on virtually all floor surfaces. Chemical resistant, it is a durable protective coating to improve gloss and maintain slip resistance for both sealed and unsealed floors. Apply a thin even coat with a clean flat microfiber pad. Dries in 10-15 minutes. Apply a 2nd coat for optimal performance. Burnishing with a hi-speed propane buffer is recommended on smooth surfaces to increase gloss and speed cure time. Use of CleanSmart's Neutral Heavy-Duty Citrus Cleaner to maintain floors improves slip resistance. Use CleanSmart Primer for porous surfaces such as VCT and bare wood or to build gloss.

Applications

Terrazzo ♦ Concrete ♦ LVT ♦ VCT
♦ Stone ♦ Wood ♦ Rubber ♦
Properly prepped ceramic ♦
Paint/coatings

Product Features:

Gloss - **Excellent**
Durability - **Excellent**
Water/Detergent Resistance - **Excellent**
Leveling - **Excellent**
Strippability - **Ok**
Adhesion - **Excellent**
Slip Resistance - **Exceeds .050 James Test**
Primer - **Self priming; optional primer**

Physical Properties:

Solids - **15%**
pH - **8.0 - 9.5**
Viscosity, cps - **<200**
Appearance - **off white emulsion**
Stability - **Do Not Freeze; Do not store over 100* Fahrenheit**

Chemically Resistant to:

- ♦ Coffee
- ♦ Red Wine
- ♦ Pickle Brine
- ♦ Vinegar
- ♦ 20% Phosphoric Acid
