To whom it may concern

We have worked with Industrial Skylights on several projects, including a residence in Oxnard California and a residence on the island of Kauai. Both projects posed a different set of challenges regarding the skylights. The Oxnard residence required a flush installation of a round skylight in a very visible area of a roof deck, whereas the Kauai residence had very large and odd shaped roof openings. In both projects, we drew heavily from John Buell's expertise in developing and installing a custom skylight system that works flawlessly and satisfies very high aesthetic standards.

Our experience working with Industrial Skylights has been very professional and their knowledge, design assistance and craftsmanship are unmatched. We are planning on working with Industrial Skylights and John Buell on future projects.

Feel free to contact me should you require any further information.

Sincerely,  
Andri Luescher, Senior Designer
