Dear Peterson Roofing,

I have ALWAYS been impressed with your business and pass on your name to friends that I know are looking for a new roof. I noticed your testimonial page, so please add this to your page so that I can reach more people.

Please thank Mike for coming out and fixing the edge of the roof (that you guys were not even responsible for)

I wish your business continued success and thank you for all your service.

Thank you,

Karen Adams

---

I noticed a roof in my neighborhood that really stood out with its quality and style and had asked the owner who she had called to replace theirs. Obviously, it was Peterson Roofing. So naturally, I also hired them as well. I was impressed with the way they handled their customers from the very start. They are honest, hard-working, and thorough. Their craftsmanship is at a very high standard and I've been extremely happy with their service ever since. It's great to deal with a family owned business where all of their staff cares to provide complete customer satisfaction.
