Dear Jim,

Fran and I want to thank you for your great work your company completed on our flat roof. Your employee Joe is very friendly and he did a good job, the leak is stopped. We appreciate you coming out to inspect the job when the leak continued and the quick resolution of the problem.

In the future when we can afford a new roof we will certainly call you. Your estimate for a complete roof was half the price our first estimate.

:

We will certainly recommend you to the people we know.

Truly yours:

Gene Mackin
