Recognition

Gentlemen:

On behalf of our client, BP Carson Business Unit and Jacobs, I wish to congratulate Arena Painting on reaching the milestone of providing painting and fireproofing services to the BP/Jacobs Alliance for the past five (5) years under the above referenced Master Subcontracting Agreement. During this period, Arena has successfully completed more than 20 projects of varying size and complexity both as Lump Sum and Time & Materials basis.

Despite the problems that typically arise in attempting to schedule and execute work in an operating refinery, Arena's management and site staff could be counted upon to work as an integral part of the project teams and complete the Work Releases to the satisfaction of the Client and Jacobs.

Sincerely,

JACOBS
