12/09/2009

Mr. Osvaldo Tamayo  
Arena Paint Contractor  
525 East Alondra Blvd.  
Gardena, CA 90248

To whom it may concern:

Arena Painting Contractors, APC, performed Paint Abatement services for the Chevron Pro Plus (+) Projects at the El Segundo, California Refinery from May to November 2009. As the General Construction Management Company for these projects, S & B Engineers and Constructors dealt directly with APC's on-site supervisor, Osvaldo Tamayo.

The APC team under Mr. Tamayo's direction performed these services in a professional and efficient manner. APC handled reviewing scope, planning work, scheduling personnel, and controlling cost very effectively. Furthermore, the APC team made conscientious efforts to deliver quality work safely and always did well in communicating/reporting progress.

Thank you Mr. Osvaldo Tamayo.

Respectfully,

A handwritten signature in black ink, appearing to read 'Rick Garcia', written over a light blue horizontal line.
